The focal point for the Concierge Approach is The Program Pyramid—a student-centered solution that provides a mix of programming opportunities that span different skill sets, needs, and objectives. From Sandbox workshops (our most accessible) to Foundational workshops featuring 1:1 mentorship for students to our more rigorous Digital Academy program, we offer a robust menu of programs that help build the technical and social skills needed to thrive, whether it be in the workplace or actively engaged in the community.

Finding the right program makes all the difference.

SEL = social and emotional learning competencies  
IEP = individualized education program  
Pre-ETS = pre-employment transition services
